

M. CHANDRU

Frontend Web Developer (React)

chandrnatrajan57@gmail.com | 7667031034 | Nazareth, Tamil Nadu | [linkedin.com/in/m-chandru-2754b0357](https://www.linkedin.com/in/m-chandru-2754b0357)

PROFESSIONAL SUMMARY

B.Tech Information Technology graduate (2026) and Frontend Web Developer with hands-on internship experience building responsive, user-facing web applications with HTML, CSS, and JavaScript. Comfortable integrating REST APIs, working with Git-based workflows, and collaborating across design and backend teams to ship features. Strong fundamentals in web structure, responsive layout, and clean code, with an active focus on deepening React and modern frontend skills. Quick learner who thrives on feedback and follow-through.

TECHNICAL SKILLS

Languages: JavaScript, HTML, CSS, Python, Java, SQL

Frontend: Responsive Web Design, REST API Integration, Bootstrap, UI-to-code conversion (Figma)

Currently strengthening: React, TypeScript, component-based architecture

Tools & Workflow: Git, GitHub, VS Code, Render

Backend/Data: Flask, MySQL, SQLite

WORK EXPERIENCE

Full Stack Web Development Intern — CodeSpark Technologies

Feb 2026 – Apr 2026 (3 months)

- Built responsive, user-facing web features with HTML, CSS, and JavaScript, focusing on usability and mobile compatibility.
- Integrated frontend components with backend REST endpoints and MySQL, handling core CRUD operations end-to-end.
- Took features from initial build through to working deployment, reinforcing an ownership mindset over the full development cycle.
- Collaborated with the wider team on workflows and code organization, applying responsive-design and code-quality best practices.

Java Development Intern — ICANIO Technologies

Jul 2024 – Aug 2024

- Applied object-oriented programming, exception handling, and core data structures to build functional programs.
- Strengthened debugging and algorithmic problem-solving through applied coding challenges in a professional setting.

PROJECTS

Fake News Detection System — Final Year Project

- Built a full-stack web application (Flask, HTML, CSS, SQLite) with a responsive interface, backed by a Naive Bayes / TF-IDF machine-learning model for text classification.
- Owned the project end-to-end — from data processing and model logic to the user-facing interface — demonstrating the same full-cycle ownership this role calls for.

EDUCATION

B.Tech, Information Technology — CGPA 7.81 | 2022 – 2026

Jayraj Annappackiam CSI College of Engineering, Anna University

Higher Secondary Certificate (HSC) — 70% | 2021

Secondary School Leaving Certificate (SSLC) — 95% | 2020

CERTIFICATIONS

- Full Stack Web Development — NOVITECH Technologies
- Web Development — CODEC Technologies
- Vibe Coding with Figma — GUVI
- AI Agents for Beginners — Simplilearn
- Cyber Threat Intelligence using Machine Learning Bootcamp — NOVITECH Technologies
